about

I relish readable, reusable, responsive, and commented code.

I also admire apt alliteration.

projects

Blood Lines is a 3D family tree visualizer built with React & D3.

Moving Shadow is a JavaScript module, which creates a responsive text shadow based on mouse position & device orientation.

Soil is a travel map, made with ES6 & Google Maps API.

skills

JavaScript ES6 | React | Webpack | Sass | Git | D3 | Node | Express | HTML5
